

THE JCSG+ SUITE

FOR SCREENING OF PROTEIN CRYSTALLIZATION CONDITIONS

The JCSG+ Suites provide:

- A ready-to-use kit format to which only protein needs to be added, for easy and fast screening
- Premixed suite based on the results of the Joint Center for Structural Genomics (1) and members of the European Genomics Consortium (2)
- A controlled environment and fresh solutions every time

The JCSG+ Suite is available in 1 ml DWBlock and 10 ml tube formats.

The formulations of the 96 conditions of this screen, together with an order number for the 100 ml refill solution for each condition, are found on pages 2 and 3. Optimization reagent stock solutions for each NeXtal crystallization screen are available on our website. Please contact us with any questions about condition formulations or optimization.
