

# THE COMPAS SUITE

FOR SCREENING OF PROTEIN CRYSTALLIZATION CONDITIONS

## The ComPAS Suite provides:

- A ready-to-use kit format to which only protein needs to be added, for easy and fast screening
- Complementary initial screening solutions selected from the most successful BMCD (1) crystallization conditions
- Polymers, alcohols, and salts as precipitant types
- Maximized reproducibility through access to production reports

The ComPAS Suite is available in 1 ml DWBlock and 10 ml tube formats.

The formulations of the 96 conditions of this screen, together with an order number for the 100 ml refill solution for each condition, are found on pages 2 and 3. Optimization reagent stock solutions for each NeXtal crystallization screen are available on our website. Please contact us with any questions about condition formulations or optimization.
